Note: A utilisation rate may be above 100% due to the fungibility of core supports. This refers to the ability of participants to use their funding flexibly between different support types, albeit within certain limitations.

| Indicator definitions   |   |
|---|---|
| Active participants with approved plans   | Number of active participants who have an approved plan and reside in the region / have supports relating to the support category in their plan   |
| Registered active providers<br>Participants per provider<br>Provider concentration<br>Provider growth<br>Provider shrinkage | Number of registered service providers that have provided a support to a participant within the region / support category, over the exposure period<br>Ratio between the number of active participants and the number of registered service providers<br>Proportion of provider payments over the exposure period that were paid to the top 10 providers supported to the top 10 providers that received more than \$10k in payments in both exposure periods have been considered<br>Proportion of providers for which payments have show by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered<br>Proportion of providers for which payments have show by more than 15% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered |
| Total plan budgets<br>Payments<br>Utilisation   | Value of supports committed in participant plans for the exposure period<br>Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))<br>Ratio between payments and total plan budgets  |
| Outcomes indicator on choice and control<br>Has NDIS helped with choice and control?  | Proportion of participants who reported in their most recent outcomes survey that they choose who supports them<br>Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control  |
| •   | The green dots indicate the top 10% of regions / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration<br>The red dots indicate the bottom 10% of regions / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration   |
|   | dered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.<br>dered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.   |

Note: A utilisation rate may be above 100% due to the fungibility of core supports. This refers to the ability of participants to use their funding flexibly between different support types, albeit within certain limitations.

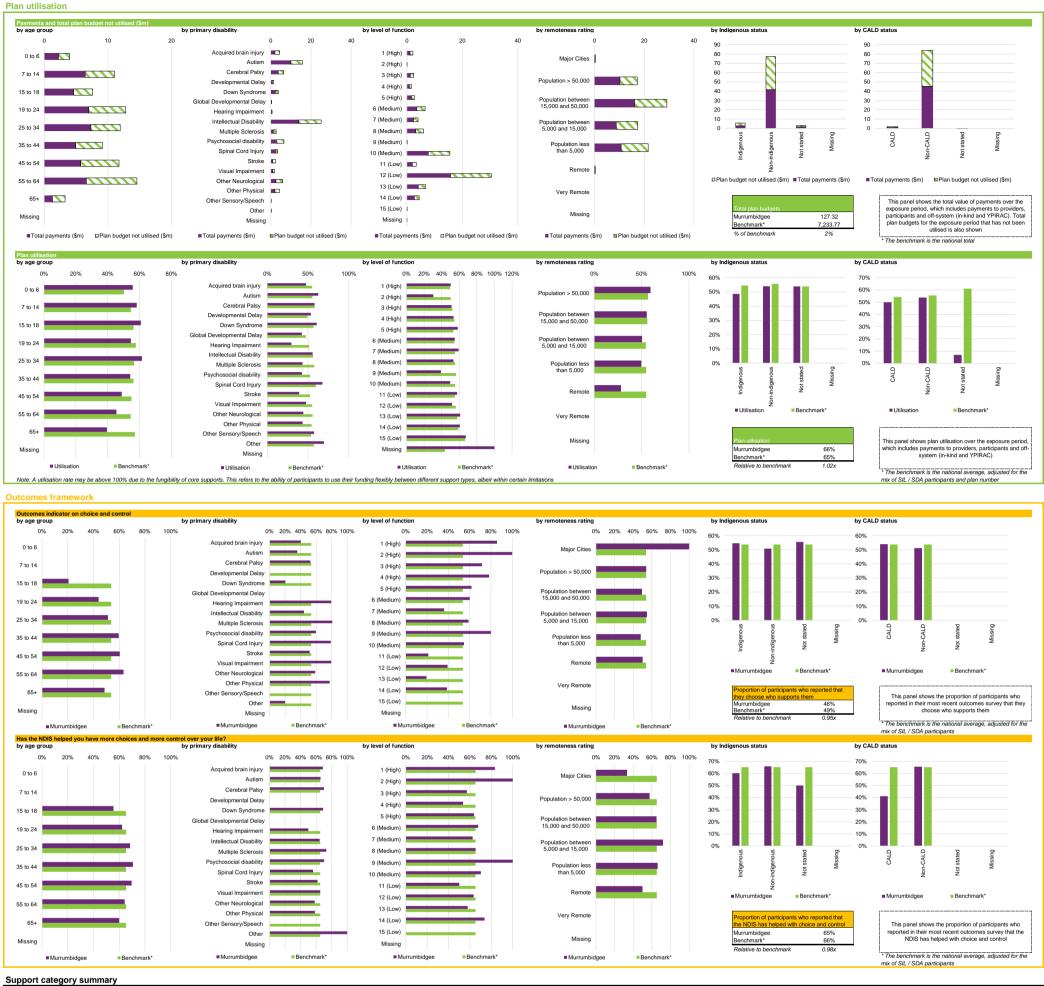

| Indicator definitions   |  |
|---|--|
| Indicator definitions   |  |
| Active participants with approved plans   | Number of active participants who have an approved plan and reside in the region / have supports relating to the support category in their plan  |
| Registered active providers<br>Participants per provider<br>Provider concentration<br>Provider growth<br>Provider shrinkage | Number of registered service providers that have provided a support to a participant within the region / support category, over the exposure period<br>Ratio between the number of acting participants and the number of registered service providers<br>Proportion of provider payments over the exposure period that were paid to the top 10 providers<br>Proportion of providers for which payments have grown by more than 10% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered<br>Proportion of providers for which payments have grown by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered |
| Total plan budgets<br>Payments<br>Utilisation   | Value of supports committed in participant plans for the exposure period<br>Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))<br>Ratio between payments and total plan budgets   |
| Outcomes indicator on choice and control<br>Has NDIS helped with choice and control?  | Proportion of participants who reported in their most recent outcomes survey that they choose who supports them<br>Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control   |
| •   | The green dots indicate the top 10% of regions / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration<br>The red dots indicate the bottom 10% of regions / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration  |
|   | dered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.   |

| All support categories  | 3.827                                   | 361                            | 10.6                         | 58%                       | 22%                | 22%                   | 86.04                       | 46.17          | 54%         | 51%   | 65%                                       |

Note: A utilisation rate may be above 100% due to the fungibility of core supports. This refers to the ability of participants to use their funding flexibly between different support types, albeit within certain limitations.

| Indicator definitions   |  |
|---|--|
| Active participants with approved plans   | Number of active participants who have an approved plan and reside in the region / have supports relating to the support category in their plan  |
| Registered active providers<br>Participants per provider<br>Provider concentration<br>Provider growth<br>Provider shrinkage | Number of registered service providers that have provided a support to a participant within the region / support category, over the exposure period<br>Ratio between the number of active participants and the number of registered service providers<br>Proportion of provider payments over the exposure period that were paid to the top 10 providers<br>Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered<br>Proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered |
| Total plan budgets<br>Payments<br>Utilisation   | Value of supports committed in participant plans for the exposure period<br>Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))<br>Ratio between payments and total plan budgets   |
| Outcomes indicator on choice and control<br>Has NDIS helped with choice and control?  | Proportion of participants who reported in their most recent outcomes survey that they choose who supports them<br>Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control   |
| •   | The green dots indicate the top 10% of regions / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration<br>The red dots indicate the bottom 10% of regions / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration  |
|   | idered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.<br>sidered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.   |
