dicator definitions	
ctive participants with approved plans	Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan
egistered active providers urticipants per provider ovider concentration ovider growth ovider shrinkage	Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period Ratio between the number of active participants and the number of registered service providers proportion of provider payments over the exposure period that were paid to the top 10 providers Proportion of provider payments over the exposure period that were paid to the top 10 providers Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered Proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered
otal plan budgets syments ilisation	Value of supports committed in participant plans for the exposure period.  Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRACI) Ratio between payments and total plan budgets
utcomes indicator on choice and control as NDIS helped with choice and control?	Proportion of participants who reported in their most recent outcomes survey that they choose who supports them Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control
	The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration  The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration

Note: A utilisation rate may be above 100% due to t	the tungibility of core supports. This refers to the ability of participants to use their funding flexibly between different support types, albeit within certain limitations.
Indicator definitions	
Active participants with approved plans	Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan
riouro participanto man approvoa piano	Number of control participants into the feat with the participant for the desired in the desired
Registered active providers	Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period
Participants per provider	Ratio between the number of active participants and the number of registered service providers
Provider concentration	Proportion of provider payments over the exposure period that were paid to the top 10 providers
Provider growth Provider shrinkage	Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered Proportion of providers for which payments for which payments have strunk by more than \$25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered
Flovider silillikage	Proportion or providers for which payments have struck by more than 25% compared to the previous exposure period. Only providers that received more than \$10km payments in our exposure periods have been considered
Total plan budgets	Value of supports committed in participant plans for the exposure period
Payments	Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))
Utilisation	Ratio between payments and total plan budgets
Outcomes indicator on choice and control	Proportion of participants who reported in their most recent outcomes survey that they choose who supports them
Has NDIS helped with choice and control?	Proportion of participants who reported in their most recent outcomes survey that the NDIS has helded with choice and control
That the inciped with choice and control.	Togotom or participants in organized in the most occurs of statute and of the most occurs of statute and of the statute and of
•	The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration
•	The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration
Note: For some metrics – 'good' performance is conside	ared a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.
	ered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.
