dicator definitions	
ctive participants with approved plans	Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan
egistered active providers	Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period
articipants per provider	Ratio between the number of active participants and the number of registered service providers
ovider concentration	Proportion of provider payments over the exposure period that were paid to the top 10 providers
ovider growth	Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered
rovider shrinkage	Proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered
otal plan budgets	Value of supports committed in participant plans for the exposure period
ayments	Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))
tilisation	Ratio between payments and total plan budgets
utcomes indicator on choice and control	Proportion of participants who reported in their most recent outcomes survey that they choose who supports them
as NDIS helped with choice and control?	Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control
ı	The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration
l e e e e e e e e e e e e e e e e e e e	The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration

Indicator definitions	
Active participants with approved plans	Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan
Registered active providers Participants per provider Provider concentration Provider growth Provider shrinkage	Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period Ratio between the number of active participants and the number of registered service providers Proportion of providers payments over the exposure period that were paid to the top 10 providers to the top 10 providers payments over the exposure period that were paid to the top 10 providers providers payments and the payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered Proportion of providers for which payments have struct, by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered
Total plan budgets Payments Utilisation	Value of supports committed in participant plans for the exposure period Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC)) Ratio between payments and total plan budgets
Outcomes indicator on choice and control Has NDIS helped with choice and control?	Proportion of participants who reported in their most recent outcomes survey that they choose who supports them Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control
•	The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric — in other words — performing relatively well under the metric under consideration The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric — in other words — performing relatively poorly under the metric under consideration
	tered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need. ansidered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.
