**Indicator definitions**

**Active participants with approved plans** - Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan

**Registered active providers** - Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period

**Participants per provider** - Ratio between the number of active participants and the number of registered service providers

**Provider concentration** - Proportion of provider payments over the exposure period that were paid to the top 10 providers

**Provider growth** - Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered

**Provider shrinkage** - Proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered

**Total plan budgets** - Value of supports committed in participant plans for the exposure period

**Payments** - Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))

**Utilisation** - Ratio between payments and total plan budgets

**Outcomes indicator on choice and control** - Proportion of participants who reported in their most recent outcomes survey that they choose who supports them

**Has the NDIS helped with choice and control?** - Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control

The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration  
The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration

Note: For some metrics – 'good' performance is considered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.  
For other metrics, a 'good' performance is considered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.

Indicator definitions

**Active participants with approved plans** Number of active participants who have an approved plan and reside in the district / have supports relating to the support category in their plan

**Registered active providers** Number of registered service providers that have provided a support to a participant within the district / support category, over the exposure period

**Participants per provider** Ratio between the number of active participants and the number of registered service providers

**Provider concentration** Proportion of provider payments over the exposure period that were paid to the top 10 providers

**Provider growth** Proportion of providers for which payments have grown by more than 100% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered

**Provider shrinkage** Proportion of providers for which payments have shrunk by more than 25% compared to the previous exposure period. Only providers that received more than \$10k in payments in both exposure periods have been considered

**Total plan budgets** Value of supports committed in participant plans for the exposure period

**Payments** Value of all payments over the exposure period, including payments to providers, payments to participants, and off-system payments (in-kind and Younger People In Residential Aged Care (YPIRAC))

**Utilisation** Ratio between payments and total plan budgets

**Outcomes indicator on choice and control** Proportion of participants who reported in their most recent outcomes survey that they choose who supports them

**Has the NDIS helped with choice and control?** Proportion of participants who reported in their most recent outcomes survey that the NDIS has helped with choice and control

The green dots indicate the top 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively well under the metric under consideration  
The red dots indicate the bottom 10% of districts / support categories when ranked by performance against benchmark for the given metric – in other words – performing relatively poorly under the metric under consideration

Note: For some metrics – 'good' performance is considered a higher score under the metric. For example, high utilisation rates are considered a sign of a functioning market where participants have access to the supports they need.  
For other metrics, a 'good' performance is considered a lower score under the metric. For example, a low provider concentration is considered a sign of a competitive market.
